Professional Summary

Frontend Developer with strong expertise in HTML, CSS, JavaScript and modern frameworks including React.js and Redux, and Three.js. Skilled in building responsive, scalable, and user centric web interfaces with clean and maintainable code. Hands on experience in developing modern frontend applications, implementing state management, and integrating REST APIs. Passionate about delivering high quality UI and contributing effectively to frontend development teams as a fresher.

Technical Skills

Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Three.js
UI Frameworks & Styling: Bootstrap, Tailwind CSS, Responsive Web Design, Flexbox, CSS Grid
Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools
Databases: MySQL
Concepts: Component Based Architecture, State Management, REST API Integration, Cross Browser Compatibility

Internship

Frontend Developer Intern (Remote) – EduSkills   Oct 2025 – Nov 2025

- Developed responsive and interactive user interfaces using HTML5, CSS3, JavaScript (ES6+), React.js, Redux, and Three.js.
- Built reusable and scalable UI components following component based architecture and clean coding practices.
- Implemented state management and integrated REST APIs to display dynamic data.
- Collaborated with mentors and team members to deliver assigned features and enhancements.
- Gained hands on experience with debugging, performance optimization, and modern frontend workflows.

Projects

3D Dog Studio Website (Live) | (GitHub)   Dec 2025 – Jan 2026

- Designed and developed an interactive 3D themed website using HTML5, CSS3, JavaScript, Three.js, and React.js.
- Implemented smooth animations, responsive layouts, and modern UI components to enhance user engagement.
- Optimized assets and performance, improving page load time by approximately 30 percent.
- Ensured cross browser compatibility and mobile responsiveness across devices.

Employee Management System (Live) | (GitHub)   Nov 2025 – Dec 2025

- Built a role based employee management dashboard with Admin and Employee modules using React.js, HTML5, CSS3, and JavaScript.
- Implemented task assignment, task tracking, and performance overview features.
- Integrated REST APIs and Redux for efficient state management and real time data handling.
- Improved UI consistency and usability, reducing navigation time by 25 percent.

Education

Bachelor of Technology in Computer Science and Engineering   2023 – 2026
Galgotias University, Noida   **CGPA: 7.72**

Diploma in Electronic Engineering   2020 – 2023
Government Polytechnic, Saharanpur   **CGPA: 7.50**
